**Advanced Installability and System Features for Various Uses**

- **Warping**: This function is possible from your computer by using the specialized application. Projection is possible on spherical surfaces and surfaces with curved corners, as well as conventional flat screens.

- **Image Optimizer**: Equipped with IMAGE OPTIMIZER that maintains visibility of an image through automatic image correction in accordance with lamp condition. This function may not work properly when HDCR or ACCENTUALIZER is ON.

- **Color Management**: This feature allows you to change the HUE, SATURATION, and LUMINANCE for each of 6 colors (red, green, blue, cyan, magenta, and yellow) without influencing each other. With this technology, for example, you can change only bluish colors, such as the sky, while maintaining the other colors by adjusting the HUE of the blue.

- **Edge Blending**: The projectors are equipped with the Edge Blending function that achieves further seamless projection of one image using multiple projectors, and allow to project on a huge curved screen by using the geometry correction simultaneously.

**High Quality and Visibility**

- **Image Optimizer**: This feature is possible from your computer by using the specialized application. Projection is possible on spherical surfaces and surfaces with curved corners, as well as conventional flat screens.

- **Color Management**: This feature allows you to change the HUE, SATURATION, and LUMINANCE for each of 6 colors (red, green, blue, cyan, magenta, and yellow) without influencing each other. This function may not work properly when HDCR or ACCENTUALIZER is ON.

**Ultra Short Throw fixed lens**

- **All Glass lens**: FL-710 uses all glass lenses that reduce the blurring that occurs under changes between high and low temperature.

- **Ceiling mount HAS-404U**: Ceiling mount bracket with 6-axis adjustment mechanism. Adopting the Jack system, it is easy to adjust elevation.

**Seamless Design**

- With the terminal cover, you can install the projector seamlessly.

- *You may not be able to attach the terminal cover when cables and devices are connected to the connection other than the HDBaseT™ terminal.

- This function is not supported and no terminal cover is bundled in some regions and countries.

**Monitoring Projector Status**

- The projectors allow you to get the information displayed on the status monitor and more by your tablet or smartphone with the latest dedicated free online application when you need, even if you are not close to the projector.

**Easy Maintenance**

- The lamp door and the filter cover are located on both sides, facilitating maintenance and replacement when the projector is installed on the ceiling. The serial number and MAC address are also labeled on the side chassis for easy readability.

**Other Features**

- **Viewpoints**: Projector Control, Wireless capability (option), Easy Scheduling Setting, Network presentation (Installation): Perfect Fit, Instant Slide, Lens center design (Security): PIN lock, Wireless lock (Security): Multi-language user menu, Direct Power On/Off, Magnify, PIP/PxP, DDC/CI® simulation mode*, Remote ID, Wired/Wireless (™) remote control

* Additional equipment may be required for this feature.

* This function is not supported and no terminal cover is bundled in some regions and countries.

* This function is not drawn to scale.

* The entire image becomes clear.

* The projectors integrate three LCD panels with inorganic alignment layers that are light resistant, increasing brightness and contrast ratio. They provide smooth images and high reliability.
